

PROJECT ENGINEER

Chesterfield, Missouri or San Francisco, California

About Longview

Longview Infrastructure is a developer of energy infrastructure backed by Stonepeak, a leading alternative investment manager with over \$83 billion in assets under management. Longview develops, constructs, owns, operates and maintains electric energy infrastructure. It combines proven execution capabilities and sophisticated investment solutions to provide benefits to ratepayers and enable economic growth.

About the Role

Longview is seeking highly-motivated recent graduates who are ready to join a fast-growing, highly-skilled team developing important new energy infrastructure. As **Project Engineer**, you will work hand-in-hand with senior developers and our executive team and be exposed to the full lifecycle of executing transmission and generation projects. You will:

- Develop and maintain project budgets, schedules, execution plans, and risk registers
- Lead the completion of permits, licenses, and land acquisition
- Act as the primary liaison with engineering, environmental, and legal contractors
- Represent Longview at open houses, workshops, and meetings
- Prepare and lead materials for executive evaluation

Who You Are

- Recent graduate with a Bachelor's or Master's in engineering, economics, finance, or a related field
- Strong analytical and problem-solving skills
- Interest in energy infrastructure and project development
- Highly motivated, detail-oriented, and eager to learn

What We Offer

- Competitive salary, bonus, and equity participation
- Excellent health, dental, vision, insurance, 401(k), and Paid Time Off
- Partnership with a small, highly effective team drawn from the best in the industry
- Significant immediate responsibility and rapid career development
