

MANAGER – FINANCIAL PLANNING AND ANALYSIS

Chesterfield, Missouri or San Francisco, California

About Longview

Longview Infrastructure is a developer of energy infrastructure backed by Stonepeak, a leading alternative investment manager with over \$83 billion in assets under management. Longview develops, constructs, owns, operates and maintains electric energy infrastructure. It combines proven execution capabilities and sophisticated investment solutions to provide benefits to ratepayers and enable economic growth.

About the Role

Longview is seeking a highly motivated mid- to early-career finance manager to join a fast-growing, highly-skilled team developing important new energy infrastructure. As the **Manager – Financial Planning and Analysis**, you will act as a key partner in managing and forecasting Longview's spend. You will:

- Partner with Longview's executive and development teams to optimize Longview's capital allocation, cash management, and financial structure
- Develop and manage corporate and project-level budgets, forecasts, and long-term financial plans
- Build and maintain financial models to support project development, investment decisions, and capital allocation
- Support financing processes, including preparation of materials for lenders
- Strengthen Longview's financial processes and backbone

Who You Are

- 10+ years of experience in FP&A, investment banking, private equity, or infrastructure finance
- Strong financial modeling and analytical skills
- Experience in energy and infrastructure sectors
- Ability to synthesize complex data into actionable insights
- Results-oriented team player with an ownership mindset

What We Offer

- Competitive salary, bonus, and equity participation
- Excellent health, dental, vision, insurance, 401(k), and Paid Time Off
- Partnership with a small, highly effective team drawn from the best in the industry
- Significant immediate responsibility and rapid career development
